This email is distributed simultaneously to the entire team as well as copied to support staff here in Australia.

About Horizon One Entertainment

Horizon One Entertainment is a large provider of packaged media (DVDs) to the Australian Home Entertainment Industry. We distribute through all major studios and the larger Australian independents as third party fulfillers.

The company has a strategic alliance with 20th Century Fox for a multi picture distribution pact to release studio level pictures through all of Fox's divisions including Theatrical, DVD/Home Entertainment and Television.

The Company has other Studio alliances providing access to wide theatrical mainstream release schedules.

Pinefilm Entertainment Pty Ltd is part of our Group. Pinefilm emerged in the late 1990s as one of Australia's leading independent art house theatrical and all rights distributors. Pinefilm specializes in art house, foreign language, niche and other specialized product requiring intelligent marketing and positioning to best exploit all rights.

Horizon is uniquely placed to represent a specialised product or a mainstream film. We have the network and sensibilities to position specialised films, to facilitate a cross over into a wider more mainstream release, or to handle a wider mainstream studio level release pattern.
